**Cosmic natural Water Conditioner**

**Long life, Fit and Forget**

**Save the water and fertilizer improves soil fertility and increase your income**

# Cosmic Natural Water Conditioner: An innovative natural water structuring device

Cosmic Water Conditioner has a special inner component that uses the same technique used by River that divides the calcium and magnesium molecules Cluster (which is the main cause for water hardness) into nano molecules and blunts the sharp edges of these nano molecules. As a result, the water molecules will lose the ability of calcium scale formation. In this process, the water molecules will retain essential minerals for the optimal growth of crops.

## Advantages of Cosmic Water Hardness Conditioner

- Does not require electricity, salt and any kind of Chemicals
  - Increases the water absorption capacity in roots
  - 40 to 50 % increase in the yield
  - Maintains pH balance in the water
  - Improves the life and durability in all kinds of agricultural tools
  - Reduces water consumption & improves soil fertility
  - Improves the carbon levels & decomposition process of the soil
  - Prevents salt formation in water pipes & taps
  - Reduces the existing calcium scaling formation gradually
  - Protects the soil health & improves the yield of the farm
  - Zero maintenance with no ill effects
  - Improves the quality & fat content in the milk
  - Improves the health & digestion process in birds & animals
- Install for more durability and Hazel free solution

### Note:

The effectiveness of Cosmic Water Controller depends on the amount of water flow in it; different models are available according to the usage of water from 1000 litres to 100000 litres of filtration capacity. Please contact our experts for suggestions and information to buy according to your needs. Follow the given guidelines for better results.
